Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group II (Claims 9-18) in Paper No. 7 is acknowledged. The traversal is on the ground(s) that if search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions. This is not found persuasive because the method as described in claims 9-18 requires a different search than the product as claimed in 1-8 and 19-27.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

Claim 14 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claim has not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3738

With regards to claim 9, the body of the claim does not coincide with the preamble. The preamble recites, "a method of securing together leaflets of a cardiac valve" while the body of the claim recites, "releasing said grasped valves".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Deem et al (WO 00/60995).

As interpreted by Examiner, Deem discloses the method for securing together leaflets of a cardiac valve. Deem discloses devices and methods for performing endovascular repair of atrioventricular and other cardiac valves in the heart. Included in the method are steps for grasping the leaflets (page 34, lines 28+) and evaluating the fluid flow through the valve (page 26, line 4). The method is performed by an endovascular (page 10, line 3) or surgical approach (page 20, line1) while the heart is beating (page 8, line 9). Deem further discloses repeating the grasping step and adjusting until the desired result is achieved (page 42, line20).
